

Mobilize Your Enterprise™ is USAT's company motto and their rallying cry. It is a call to action to lead their clients to an effective and profitable mobile communications model. USAT accepts the challenge of being the turn-key partner that can provide end-to-end service in the mobility space.

FOCUS

USAT Seat Mount Solution—NR

USAT NR (Non Rugged) Seat Mount Solution

Designed as a generic "Workstation on the go", USAT Corporation's *Seat Mount NR* mounting solution is designed for workers who require a stable and portable office solution. The base unit is designed of polyethylene substrate, and consists of a base unit and mounting arm. The NR designates Non Rugged, and incorporates the Notepad 4 in-vehicle docking station for secure mounting of Panasonic business rugged or non-rugged laptop devices. While this solution does not provide any hot docking capabilities or port expansion, the solution is ideal for securing laptops while vehicles are in motion. Additional options include fixed rugged modems, printers and scanners to complete this unique *cost effective* mobile office solution.

Rapid install and user friendly design ~ The base unit rests on the passenger seat, and tucks between the seat and seat back for a secure fit. The seat belt shoulder harness provides extra stability. Workers are ready to roll in as little as three minutes.

Seat Mount NR seat mount pictured above includes a laptop dock, adjustable mounting arm, device specific mounting clips, and a DC power adapter. Optional rugged printer and scanner complete the entirely portable workstation solution.

Seat Mount NR Laptop flexibility

Designed with convenience and device flexibility in mind, the user is able to secure and utilize their laptops in an ergonomically friendly position for traditional keyboard access. Additional storage area within the seat mount is perfect for paperwork, folders, printers, scanners, or general storage use. This solution requires manually connecting power, serial, and USB devices following docking, and provides a stable platform for securing all required components for a mobile office..

Application Notes:

This fleet vehicle solution is specifically designed for instant deployment into an vehicle type within 3 minutes; and requires no permanent modifications to the vehicle. Common use is found within the Transportation, Field service, Field sales, Insurance, and Utility verticals; but is applicable for any rapid deployment need or when installing into a private or rental vehicle. Optional Scanners and printers are available to facilitate printing of delivery notification or work orders, or when the operational process requires transmission of signed documents back to headquarters for invoicing purposes.

Seat Mount NR - \$499 Complete USAT polyethylene seat mount, designed to be mounting surface for computer, external wireless modems, printers, etc. and includes a DC Power adapter with cigarette lighter plug.
